

# CASTORIA

for Infants and Children.

**MOTHERS, Do You Know** that Paregoric, Bulman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

**Do You Know** that opium and morphine are stupefying narcotic poisons?

**Do You Know** that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

**Do You Know** that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

**Do You Know** that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

**Do You Know** that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

**Do You Know** that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria," and its formula, and that to imitate them is a state prison offense?

**Do You Know** that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

**Do You Know** that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

**Do You Know** that when possessed of this perfect preparation, your children are kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of *Dr. H. Pitcher* is on every wrapper.

Children Cry for Pitcher's Castoria.

## TALKING OF CYCLONES.

Man from Kansas and His Story About the Gentle Zephyr.

"And, talking about cyclones," said the man from Kansas, "I'm air twisters is mighty queer things. This here one down in St. Louis wasn't worth shucks compared with some we have down our way. Why, our county had six last summer, but it pears like we was going to have so well this year. Missouri seems to be a-gittin' 'em all."

The smart young man who sat beside the Kansas throw away his cigarette, and even the grumpy man looked interested.

"You have seen a tornado, then?" said the smart young man, with animation.

"Seen 'em?" said the farmer, scornfully. "Why, young fellow, I comes from Kansas."

"Of" said the smart young man. A little later he ventured to remark:

"Had lots of experience with cyclones, I suppose."

"Experience? Naw, you don't get no experience dealing with cyclones," said the man from Kansas, "cause them twisters never do the same thing twice. You just learn to dig out for the cellar when you see 'em comin'."

"They do all sorts of queer things, I suppose," said the grumpy man, as he started the train with a sudden bound that jolted the smart young man's hat over his eyes.

"One of 'em done me a good turn once," said the man from Kansas, meditatively. "Boot and Mit Glover own the next farm to mine out in Pawnee county, and their crops kept a-fallin' and they kept a-borrowing money off of me till they had their house mortgaged clean up to the roof. It looked like my money was a goner, for they kept on loaning their corn crop every year and I couldn't get the house 'cause they had a shotgun waiting for me in the kitchen. Well, one day 'long comes one of those roaring cyclones, and blessed if it didn't blow that whole house over into my pasture. Yes, sir, and dropped the roof down on the foundations just as neat as you could have laid it. Looked as if the house had just sunk out of sight. But then I didn't have a mortgage on the roof, so I didn't care about that."

"Reminds me of a story of a brother of mine out in Iowa," said the man on the step, "He had a fine setter dog—best hunter in the state. My brother couldn't shoot, so he wanted to sell him. But he couldn't, 'cause the dog had a twist in his tail like a pig. Cyclones caught that dog out in the back-west patch one day and just natchery trued out that tail like a broomstick. He sold that dog for \$50 the next week."

"Friend of mine saw a harder blow than those down in Mexico last winter," said the smart young man, as he lit another cigarette.

"Was it a twister?" asked the man from Kansas.

"No," said the smart young man, as he dropped off the car. "It was a straight right in the jaw. It put Maher to sleep in the first round."—Chicago Tribune.

**FOUGHT WITH EGGS.**

Unique Weapons Employed in a Battle between Women.

Mrs. Riley, who keeps a boarding-house at 419 Geary street, and Margaret St. Clair, one of her lodgers, engaged yesterday in a novel fight, says the Los Angeles Herald. It is asserted that Miss St. Clair purchased a bag of fresh eggs and requested Mrs. Riley to allow her to cook some of them on her stove. Mrs. Riley objected. Then it is stated, Miss St. Clair got into action. One after another of the choice eggs were thrown at the landlady's head. The young woman was a good shot, and by the time the 12th egg had been smashed among the prizes of Mrs. Riley's front-piece that lady was in a deplorable condition. She was mad, too—very mad—and she doubled up her fists and struck her lodger a blow in the eye. Miss St. Clair is something of a pugilist herself. She sent in a right swing, and a cry of pain from Mrs. Riley announced that it had landed. Then there was some close in-fighting. For a time things were pretty lively. The two women were finally separated by some of the lodgers. Later Mrs. Riley had Miss St. Clair arrested on the charge of battering her with eggs.

Indulgent Mother Earth.

The waters deluge man with rain, oppress him with hail and drown him with inundations; the air rushes in storms, prepares the tempest, and lights up the volcano; but the earth, gentle and indulgent, ever subservient to the wants of man, spreads his walk with flowers and his table with plenty; returns with interest every good committed to her care, and although she produces the poison, she still supplies the antidote; though constantly teased more to furnish the luxuries of man than his necessities, yet, even to the last, she continues her kind indulgence, and when life is over she piously covers his remains in her bosom.—Pittsburg.

## NO BALLOT YET.

(Continued from First Page.)

Income Tax.—But for this decision by the Supreme Court there would be no deficit in the revenue under the law passed by a Democratic Congress, that court having sustained under that decision constitutional objections to its enactment, which have been overruled by the ablest judges who have sat on that bench. We declare that it is the duty of Congress to use all the constitutional power which remains after decision, or which may come from its reversal by the court, as it may hereafter be constituted, so that the burden of taxation may be equally and impartially laid, to the end that wealth may bear its due proportionate expenses of the Government.

Immigration.—We hold that the most efficient way to protect American labor is to prevent the importation of foreign pauper labor to compete with it in the home market and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production and thus deprives them of the means of purchasing the products of our home manufacturers. The absorption of wealth by the few, the consolidation of our leading railroad systems and the formation of trusts and pools require a stricter control by the Federal Government of those arteries of commerce.

Railroads.—We demand the enlargement of the powers of the Interstate Commerce Commission and such restrictions and guarantees in the control of railroads as will protect the people from robbery and oppression.

Excess Extravagance.—We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican Congresses, which have kept taxes high, while the labor that pays them is unemployed and the products of the people's toil are depressed in price till they no longer repay the cost of production. We demand a return to that simplicity and economy which best befits a Democratic government and a reduction in the number of useless offices, the salaries of which drain the substance of the people.

Federal Interference.—We denounce arbitrary interference by Federal authorities in local affairs as a violation of the Constitution of the United States and a crime against free institutions, and we especially object to government by injunction as a new and highly dangerous form of oppression by which Federal Judges, in contempt of the laws of the States, and the rights of citizens, become at once legislators, Judges and executioners; and we approve the bill passed at the last session of the United States Senate, and now pending in the House, relative to contempt in the Federal courts and providing for trials by jury in certain cases of contempt.

Pacific Frontiers.—No discrimination should be indulged in by the Government of the United States in favor of any of its debtors. We approve of the refusal of the Fifty-third Congress to pass the Pacific Railroad Funding Bill, and denounce the effort of the present Republican Congress to enact a similar measure. Pensions.—Recognizing the just claims of deserving Union soldiers, we heartily endorse the rule of the present Commissioners of Pensions that no names shall be arbitrarily dropped from the pension roll, and the fact of enlistments and service should be deemed conclusive evidence against disease or disability before enlistment.

Admission of Territories.—We favor the admission of the Territories of New Mexico and Arizona into the Union as States, and we favor the early admission of all the Territories having the necessary population, and resources entitling them to Statehood, and while they remain Territories, we hold that the official appointees to administer the government of any Territory, together with the District of Columbia and Alaska, should be house-fish residents of the Territory or district in which their duties are to be performed.

Public Lands.—The Democratic party believes in home rule, and that all public lands of the United States should be applied to the establishment of free homes for American citizens.

Alaska.—We recommend that the Territory of Alaska be granted a delegate in Congress, and that the general land and timber laws of the United States be extended to said Territory.

Mississippi River.—The Federal Government should secure and improve the Mississippi river and other great waterways of the republic, so as to secure for the interior States easy and cheap transportation to tide-water. When any waterway of the republic is of sufficient importance to demand aid of the Government, such aid should be extended upon a definite plan of continuous work until permanent improvement is secured.

Cuba.—We extend our sympathy to the people of Cuba in their heroic struggle for liberty and independence.

Civil Service.—We are opposed to life tenure in the public service. We favor appointments based upon merit, fixed terms of office and such an administration of the civil service as will afford equal opportunities to all citizens of ascertained fitness.

Third Term for President.—We declare it to be the inviolable law of this republic, established by custom

and usage of one hundred years and sanctioned by the examples of the greatest and wisest of those who founded and have maintained our Government, that no man should be eligible for a third term of the Presidential office.

Confiding in the justice of our cause and the necessity of its success at the polls, we submit the foregoing declaration of principles and purposes to the considerate judgment of the American people. We invite the support of all citizens who approve them and who desire to have them made effective through legislation for the relief of the people and the restoration of the country's prosperity.

Congress and Headquarters.

"I was attacked with catarrh in the head and consulted the best physicians I could find, without much relief. I spent a great deal of money trying to get cured, but all the remedies failed and my head was getting worse all the time. My limbs were also swollen with rheumatism and I could hardly walk. After a while I came to the conclusion that I would try Hood's Sarsaparilla, and when I had taken the first bottle I thought that it helped me some, and while taking the second bottle I improved rapidly. The ringing noises ceased and I was feeling much better. My friends whom I met on the street were surprised to see me looking so well. Hood's Sarsaparilla has also cured me of a cough and severe headaches." W. T. Pedigo, Cammer, Ky.

The first stone for paving streets was laid in New York in 1659.

Mrs. Rhodie Noah, of this place, was taken the night with cramping pains and the next day diarrhoea set in. She took half a bottle of black berry cordial but got no relief. She then sent to me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich.—For sale by R. C. Hardwick, druggist.

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depends upon what he gets out of his food. This depends upon his digestion. Remove the obstructions by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulency, dizziness, biliousness and "heartburn." The "pellets" are very gentle in their action. Hood's Sarsaparilla purifies the blood, overcomes that tired feeling, creates an appetite, and gives refreshing sleep.

The first Lombardy popular in America was planted by Michaux in 1785.

In the vicinity of Boquet, West-morland Co., Pa., almost any one can tell you how to cure a lame back or stiff neck. They dampen a piece of flannel with Chamberlain's Pain Expeller and bind it on the affected parts and in one or two days the trouble has disappeared. This same treatment will promptly cure a pain in the side or chest. Mr. E. M. Fry, a prominent merchant of Boquet, speaks very highly of Pain Expeller, and his recommendations have had much to do with making it popular there. For sale by R. C. Hardwick, druggist.

The first American theater was opened in 1750 in the city of New York.

##### The City Fathers.

The Council meeting Tuesday night disposed of the usual routine business but did nothing of much interest to the public.

The time of meeting was changed from the first Tuesday to the last Tuesday in each month.

The citizens on "Swapping Alley" again pressed the matter of unprofitable horse trading on that street and the police have been instructed to prevent the collection of crowds within the city limits for the purpose of swapping horses. This will break up a business that has flourished on Fifth street since the oldest citizens were in their cradles.

North Clay street was ordered to be macadamized and curbs were ordered down on the side of of Cleveland avenue. A new pavement was also ordered to be put down in front of Wyle's drug store. It was decided to cut down Main street from Seventh to Eighth and raise it from Eighth to Ninth, to change the grade.

A sinking fund of \$6,500 was set aside to pay O. V. bonds.

Lightning's Deadly Work.

(Clarksville Last Chronicle.)

News from the vicinity of Elmo, Ky., states that on last Thursday and Friday lightning did a considerable amount of deadly work in that vicinity. Five men, a farmer, had six head of hogs killed on Thursday.

On Friday, while one of the mules of another farmer, Ross Rogers, was quietly grazing in a pasture, the animal was struck by an electric current and killed. The mules were full of electricity in the Elmo neighborhood on the two above mentioned days, causing considerable alarm, but no loss of human life is reported.

Harry Wallace, a young man twenty-five years of age, was carried under a coal mine and drowned at Towhead Island Tuesday morning.
